

## The New Times Examiner Website

Our website is currently under construction. Please be patient as we progress with further additions and adjustments in the coming weeks.

In the next couple of weeks we will be adjusting formatting issues and adding more content and new features/services. We will go ahead, and each week, start adding published content as before.

Once website is complete, we will be offering some services for an extra charge and leave some content for public access - examples: each issue will be available in its entirety for registered users only. We will, also, be adding the "Email Your Legislators" feature for registered users only. More detailed information will be available in a few days.

Thank you for your patience!
