

## VTL Precision Expanding Lowcountry Presence with New Operations in Berkeley County

### \$8.2 Million Investment to House New Business Line in Goose Creek, S.C.

By SC Governor's Office

**COLUMBIA, S.C.** – [VTL Precision](#), a leading developer and manufacturer of precision-engineered engine, transmission and turbocharger components for the commercial vehicle and passenger car markets, is locating new operations in Berkeley County. The company's \$8.2 million investment is projected to create 10 new jobs.

VTL Precision is a venture of VTL Group, a privately-owned automotive and precision engineering company with manufacturing operations in Europe, India and North America. Specializing in the design, development and manufacture of high-specification, complex machined components, VTL Group supplies a variety of original equipment manufacturers and tier one suppliers.

The company's new facility, located at the Crowfield Corporate Center at 5 Corporate Parkway, Goose Creek, S.C., will house a new business line to produce automotive components. The facility will complement VTL's existing operations in Palmetto Commerce Park. Those interested in joining the VTL Precision team should visit the company's [careers page online](#).
